

PortfolioScience Releases PSRealTime™ Real-Time Data Add-In Service

NEW YORK--March 4th, 2002--PortfolioScience announces the release of PSRealTime™ Microsoft® Excel® Add-In subscription service.

PortfolioScience has partnered with BarChart.com to offer a unique market data tool. Through this new product, users of Microsoft Excel are able to link their spreadsheets to real-time streaming market data, historical quotes, and detailed market analysis tools.

Included in the add-in is the ability to easily download historical data, generation of user defined moving averages, and open, high, low, close time series. In addition, over 100 fundamental and technical data points and ratios are available for NASDAQ, AMEX, and NYSE securities.

Subscribers to the PSRealTime™ service can link up to 100 on-sheet quotes, combining streaming last, change, volume, bid and ask data.

Subscription to PSRealTime™ Add-In is available on line at:
